

WHAT IS CLAIMED IS:

1. An accessory pack adapted to be worn on the upper arm of a user comprising:

a plurality of pockets, each of said pockets having a front wall, a back wall and interconnected side walls closed off at the bottom and open at the top;

each of said pockets having a flap hingedly connected thereto movable from a first position allowing access into the interior of each of said pockets to a second position normally closing off the interior of each of said pockets, each of said flaps being removably secured to the respective front wall of each of said pockets; and

said pockets being mounted on a base, said base having adjusting means connected thereto for releasably securing said base about the upper arm of a user and adjusting the same to the dimensions of the upper arm of a user.

2. The pack of claim 1 wherein a third pocket is provided having a front wall and a back wall, said back wall also being the front wall of one of said pockets and closed off at the top, bottom and one side thereof, the other side being normally closed by a closure member.

3. The pack of claim 2 wherein said closure member is a zipper.

4. The pack of claim 1 wherein the other of said pockets has a hole through the bottom thereof.

5. The pack of claim 4 wherein the other of said pockets has a loop fixed to the front wall thereof.

6. The pack of claim 1 wherein the back wall of each of said pockets is secured to said base.

7. The pack of claim 1 wherein one of said pockets is about 4" long and about 2" wide.

8. The pack of claim 7 wherein said last-mentioned pocket is disposed away from the body of the user when secured about the upper arm of the user.

9. The pack of claim 7 wherein the other of said pockets is about 3½" wide and about 4" long and disposed adjacent the body of the user when secured about the upper arm of the user.

10. The pack of claim 9 including a third pocket having a front wall and a back wall, said back wall also being the front wall of said other pockets and closed off at the top, bottom and one side thereof, the other side being normally closed by a closure member.

11. The pack of claim 10 wherein said closure member is a zipper.
